Webinar on 'Inculcating Entrepreneurial Mindset among Students' in association with Entrepreneurship Development Institute of India (EDII)

The recent explosion of entrepreneurial activity and the prominent role of knowledge in the 'new economy' has shown that there is a need for academic institutions to become more entrepreneurially oriented, thereby facilitating a change in their approach, governance, and administration. The early exposure to the need for innovation and problem solving cultivates the risk-taking attitude in the students. Such implementation through a structured mechanism is required to be adopted to promote student start-ups. Students across India are also contributing creative technological ideas/innovations for the national competitions for children's ideas and innovations which has spurred the motivation for entrepreneurial activity in students and acted as a driving force for the educators.

In this regard, CBSE in association with Entrepreneurship Development Institute of India (EDII), Ahmedabad has planned to conduct a webinar as per the following details:
