

Dear Parent,

Greetings from AVN Vida International School!

Students of Pre-Primary division will be learning all about colour '**Blue**' in the month of **July**. The concept of the blue colour will be reinforced in different topics that students will be learning. To mark this milestone, we will be celebrating '**Blue Day**' on Friday, **15th July 2022**. **Parents are requested to send the children dressed in blue colour.**

The objective of celebrating this day is to make the kids aware of the colour blue and its shades, learning its significance while they develop the fine motor skills and to be able to visually discriminate different colours.

We look forward to your support and cooperation!

Best

Principal
